

I'm from a design background with 5 years of experience. I'm now furthering my career by branching out into Web Development. I've completed a self-funded coding boot camp and am looking for a Junior Developer role. My aim is to constantly evolve as a developer.

## Experience

### S6 Design & Print Designer/IT Admin

May 2016 – June 2018

- Set up and maintenance of hardware and network for an industrial printing operation.
- Project management of commercial projects.
- Research & analysis of new software and hardware to improve business productivity.
- Chose and assembled PC components to create machines that met performance requirements.
- Working collaboratively with colleagues to overcome challenges.
- Communication with high profile clients.
- Build and upkeep of company websites, created CMS for easy blog updates.
- Design of branding, graphics and marketing materials.
- Troubleshooting issues that arose with hardware/software. Competent with Windows/Mac OS, Adobe CC Apps, RIP Software and wide format printer installations/repairs.

English Literature **B** | English Language **C** | Maths **B** | Biology **C** | Chemistry **C** | Physics **C**  
Geography **C** | German **C** | Music **B** | IT Level 2 **Credit (Equivalent to two B grade GCSEs)**

## Skills

Core skills are in **Bold**

|                   |               |
|-------------------|---------------|
| <b>HTML</b>       | React         |
| <b>CSS</b>        | C#            |
| <b>JavaScript</b> | ASP.NET       |
| jQuery            | SQL           |
| Bootstrap         | Adobe CC Apps |

## Interests

**Computing** From a very young age, I've had a keen interest in IT. I've always been an avid gamer & enjoyed learning more about hardware and new software.

**Music** I'm passionate about live music, I frequently go to gigs. I'm also a guitarist in a band with my friends, regularly playing gigs across London.
